Note

Outputs from scripts 01 and 02 are included in the repository. You should not need to run them.

START

Predict water table static depth in a new area

First time running the scripts on this PC?

YES

NO

Run

04_process_dem_data.py

New groundwater depth observations?

YES

NO

Run

03_process_wtd_observation.py
05_process_ndvi_data.py
06_process_precip_data.py
07_create_spatial_grid.py
08_create_training_dataset.py
09_create_ml_model.py

Run

10_create_wtd_prediction.py

END

Water table static depth predicted
